Why Commercial Restrooms

Commercial restrooms are likely to be utilized by thousands of people in a day. With so much use there is a high probability of vandalism to the many items within a commercial restroom, costing countless amounts of damage everyday.

Challenges

- Receives regular audits to ensure the facilities and utilities are maintained and graffiti free
 - Continuous vandalism to the items within a commercial restroom (mirrors, partitions, urinal tops...etc.)
 - Continuously replacing vandalized items
-

About Graffiti Shield

Manufacturers of surface protection solution products for glass, metal, and solid surfaces. Graffiti Shield specializes in precut anti-graffiti films for public and private spaces. Graffiti Shield was founded in early 2013, but has decades of experience manufacturing and installing protective films leading up to the launch of a very seasoned company from day one. It has been recognized that the graffiti control market has been only partially serviced and supported by individual facets or companies for different areas of concern. We saw a need from clients for a holistic graffiti control/abatement for all of their needs. Thus Graffiti Shield was born.

We Can Help

Graffiti Shield offers a wide variety of protective and finished products. We recognize the value of keeping properties clean and free of vandalism while providing protection to the surface underneath.

- Improves the look of aged restroom stalls, corroded and vandalized mirrors, and fixtures without having to replace or discard
- Proprietary adhesive that cleanly releases from the surface, but withstands removal attempts from public
- Printable for advertising, company messages, employee messages, and decorative touches
